PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student at Bennett University with strong interest in full stack development, cybersecurity, and data-driven technology solutions. Skilled in Python, Java, HTML, CSS, JavaScript, React, Node.js, MongoDB, SQL, and Git, with hands-on project experience. Selected to begin an on-site Cybersecurity Analyst internship at Lysandra Group, Gurgaon from June 2026.

KEY SKILLS

Programming Languages: Python, Java, C++ (currently learning), JavaScript

Web Development: HTML, CSS, JavaScript, React, Node.js

Databases & Tools: MongoDB, SQL, Git, GitHub

Core Areas: Full Stack Development, Cybersecurity Fundamentals, Computer Networking, Data Analysis, Problem Solving

INTERNSHIP EXPERIENCE

Cybersecurity Analyst Intern | Lysandra Group | Gurgaon, Haryana | June 2026 - August 2026

- Selected for an on-site internship under the Founder's Division Leadership at Lysandra Group.
- Expected to work on cybersecurity analysis, data analysis projects, business intelligence support, dashboards, reports, and strategic data-driven decision-making tasks.
- Will gain hands-on exposure to corporate workflows, reporting, analysis, and security-focused problem solving.

EDUCATION

B.Tech in Computer Science Engineering | Bennett University | Greater Noida, Uttar Pradesh | Expected 2028

- Currently in 2nd year with focus on full stack engineering, software development, cybersecurity, and computer science fundamentals.
- Class XII | The Millennium School | CBSE Board | Lucknow, Uttar Pradesh
Class X | St. Ann's Convent School | ICSE Board | Lucknow, Uttar Pradesh

PROJECTS

LifeSync | Health & Lifestyle Web Application | Full Stack Web Development

- Developed a health-focused web application that analyses daily routines and guides users toward better sitting posture, eating habits, and lifestyle discipline.
- Integrated reminders, animations, and engaging UI elements to improve consistency and make health tracking more interactive.
- Designed the project around real-life wellness challenges, usability, routine improvement, and practical recommendations.

College Gym Management Website | HTML, CSS, JavaScript, React, Node.js, Database Concepts

- Built a web-based platform to manage gym queues, improve exercise planning, and make workouts more engaging for college students.
- Added competition-oriented features to increase student participation, reduce waiting time, and improve overall gym usage.

CERTIFICATIONS & COURSES

- The Bits and Bytes of Computer Networking - Coursera
- Introduction to Microprocessors - Coursera
- Full Stack Web Development Course by Angela Yu - Udemy
- MATLAB Certification / Training

EXTRACURRICULAR & ACHIEVEMENTS

- Actively involved in building practical full stack projects focused on student utility, health, and fitness improvement.
- Demonstrated initiative in self-learning through web development, computer networking, microprocessors, and MATLAB certifications.
- Participated in college-level technical learning and project-based activities to improve teamwork, problem solving, and presentation skills.
